

PRODUCT

DESCRIPTION

Nasterol

Suitable for:
Poultry, Aquaculture, Ruminant,
Swine, Pet Food.

Nasterol, from plant oil phytosterols, boosts growth and meat quality by enhancing protein synthesis and energy metabolism in animals, ensuring efficient and safe livestock production.

Navita

Suitable for:
Poultry, Aquaculture, Ruminant,
Swine, Pet Food.

Navita provides natural vitamin E from plant oil, with superior absorption and function, enhancing animal production and product quality.

Naqualene

Suitable for:
Poultry, Aquaculture, Ruminant,
Swine, Pet Food.

Naqualene extracts squalene and other plant components to boost immunity, enhance antioxidant properties, and promote animal growth and health.

DDCaroma

Suitable for:
Ruminant, Swine, Pet Food.

Increases animal appetite with delicious aroma.

DDCGarlicin

Suitable for:
Poultry, Aquaculture.

Garlicin, extracted from *Allium sativum*, is a safe and effective antibacterial growth-promoting additive with high biological activity and minimal side effects. Its health benefits are widely recognized.

DDCessential oil

Suitable for:
Poultry, Swine.

Essential oils, safe feed additives, can serve as natural growth promoters in animal diets.

DDCAcidifier

Suitable for:
Poultry, Swine.

Acidifier is an organic acid that functions to increase digestibility by increasing the performance of digestive enzymes, lowering the pH in the intestine and maintaining the balance of microbes in the digestive tract.

Novogold

Suitable for:
Poultry.

Novogold is a blend of Essential Oils with carotenoids. Carotenoids are mainly found in the egg yolk, skin, fat, liver and feathers. They are essential not only for pigmentation, but also for immunomodulation as antioxidants. It is commercially available in a powder form.

Complex Feed Enzyme

Suitable for:
Ruminant.

Enzymes in animal feed boost feed efficiency, enhancing weight gain and improving milk and meat production.

Diludine 30%

Suitable for:
Poultry, Ruminant, Swine.

Diludine, a veterinary growth promoter, acts as an antioxidant, protecting lipids, vitamin A, and carotene in feed from oxidation.

High Purity Iron Oxide

Suitable for:
Pet Food.

IronOxides comply with EU Directive No. 231/2012 for food additives. Custom shades are available, blending iron oxides for natural earthy brown colors.
